Attn: Thomas J. Slukich
Division Manager

Dear Mr. Slukich,

The Braidwood Project Management Team would like to take this opportunity to thank you and your team for helping make the Braidwood U2 Main Power Transformer replacement during our Fall outage a huge success.

We would expressly like to acknowledge the co-operation and support received from the NCC on-site team of yourself and Andy O'Day.

We would also like to thank you for your help in resolving the emergent problems that required the re-plating of the LV stabs on the spare transformer and the Main Generator Links. Your work saved the station considerable expense and for that we are grateful

Again, thank you and we look forward to working with your company in the future.
